Our vision is to lead the industry as a premier software solution provider, advancing our market position. We desire to earn global recognition for delivering quality and satisfying our customers with trustworthiness and reliability.

*Making Technology
Universally
Accessible!*

The background is a dark blue gradient with various white icons: a bar chart, a handshake, a globe, a lightbulb, a target, and a smartphone. A pair of hands is shown in the foreground, one holding a glowing globe. A large black diagonal shape cuts across the center, containing the main text.

At **ITSpectrum Solutions**,
We Make it work, Make it right, & Make
it fast.

We always deliver more than
expected.

Our Process

DEFINE SCOPE

We begin with a discussion to understand the client's objectives and expectations.

DOCUMENTATION

Our experts create the technical design documents based on the clients requirements.

DESIGN

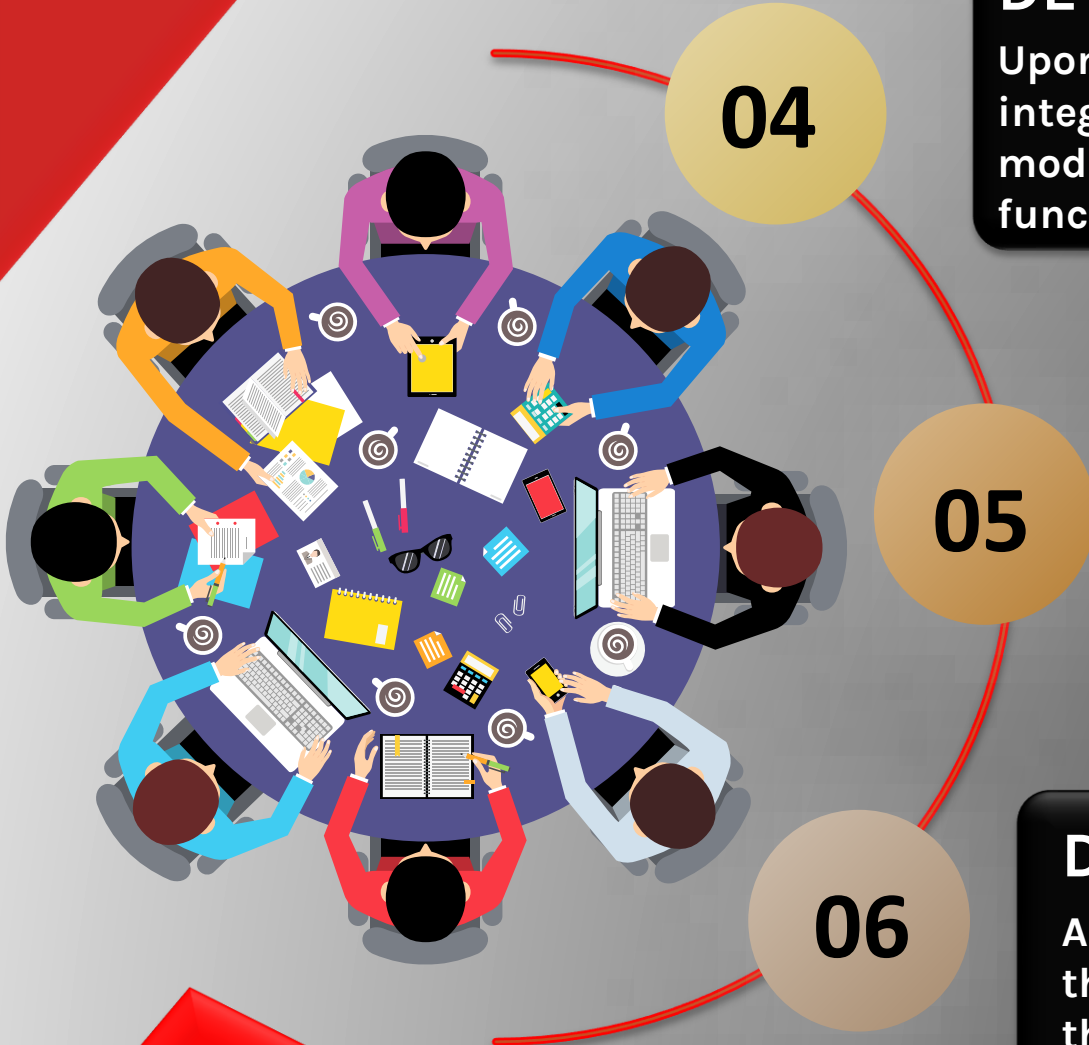

Share preliminary design concepts with the client for their feedback until a final design is agreed upon.

01

02

03

04

DEVELOPMENT & INTEGRATION

Upon client's approval, we develop and integrate various components and modules to ensure seamless functionality.

05

TESTING

We conduct individual component testing of the entire system to verify its functionality.

06

DEPLOYMENT

After rigorous testing, we will initiate the deployment of the application onto the client's server.

Our Services

Project Name – Recrueet Project Type – Employee Hiring Platform

PROJECT DETAILS –

Recrueet platform focuses on innovating the future of human resource management and talent acquisition with accessible, cutting-edge technology. The platform helps employers generate an offer letter to a desired candidate once they are selected. Recrueet improves employee onboarding process and makes the hiring process hassle-free for employers.

The screenshot shows the Recrueet website homepage. At the top, there is a navigation bar with the Recrueet logo, a home icon, and links for About, EMPILY, Pricing, Blog, and Contact Us. On the right side of the navigation bar, there are buttons for 'Log In' and 'Sign up'. The main heading reads 'Hire Recrueet to Find Ideal Candidate'. Below this, there is a paragraph describing Recrueet as a reliable one-stop destination for firms, highlighting its seamless onboarding process, employee KYC verifications, and the use of Blockchain for legitimacy and job qualifications. A green button labeled 'Enroll Your Company >' is positioned below the text. To the right of the text is a large image of two hands shaking over a desk with a laptop and glasses. Below the main heading and text, there are two paragraphs of descriptive text. The first paragraph states that Recrueet's advanced technology and expertise will help find a perfect candidate and generate offer letters. The second paragraph mentions that Recrueet's assistance improves the onboarding process without hassle, ensuring secure databases. Below this, a third paragraph explains that Recrueet acts as an intermediary, verifying candidate profiles and providing genuine details. A bold heading follows: 'Recrueet can be the Mediator Between Businesses and Candidates.' Underneath, it says 'Utilize Recrueet's most reliable database, which integrates with Blockchain, to hire verified candidates.' The bottom section features four icons representing different services: 'On-boarding Process' (a person with a pie chart), 'Employee KYC Verification' (a person with a magnifying glass), 'Resume Building Services' (a person with a stack of papers), and 'EMPILY Score' (a person with a computer monitor). Each icon is accompanied by a short description of the service.

recrueet

About EMPILY Pricing Blog Contact Us

Log In Sign up

Hire Recrueet to Find Ideal Candidate

Recrueet is the reliable one-stop destination for any firm in terms of the seamless employee onboarding hiring process, employee KYC verifications, etc. Many businesses these days frequently inquire about the legitimacy and job qualifications of candidates. And, with our services, those queries will be no more. Powered by Blockchain, this platform guarantees to give you a comprehensive review, including the employee's personal details evaluation, KYC verification, and EMPILY score. Thus, no need to stress out about the candidate's job credentials anymore while hiring.

Enroll Your Company >

Our advanced technology and expertise will follow the procedure and help you find a perfect candidate, isn't it great! Also, with this platform you can generate an offer letter to a desired candidate. So, by enrolling on our platform, you can put an end to your concerns about finding the right applicant.

With Recrueet's assistance, improve your employee onboarding process of hiring without a hassle. All you need to do is register your company on our platform. Our site is built using safety measures, guaranteeing that all databases are secure and don't get interfered with by any third party.

This platform can act as an intermediary for both the employer and the applicant. In addition to any firm's request for a candidate's profile to be verified, applicants can share their opinion on a company here. Recrueet can be a reliable option for all the companies out there to get genuine verified details of an applicant. In this way, we can be a trusted service provider in the onboarding candidate hiring process.

Recrueet can be the Mediator Between Businesses and Candidates.

Utilize Recrueet's most reliable database, which integrates with Blockchain, to hire verified candidates.

On-boarding Process

We can help you generate offer letters to desired candidates besides keeping the candidates resume in the data record for the future onboarding hiring process.

Employee KYC Verification

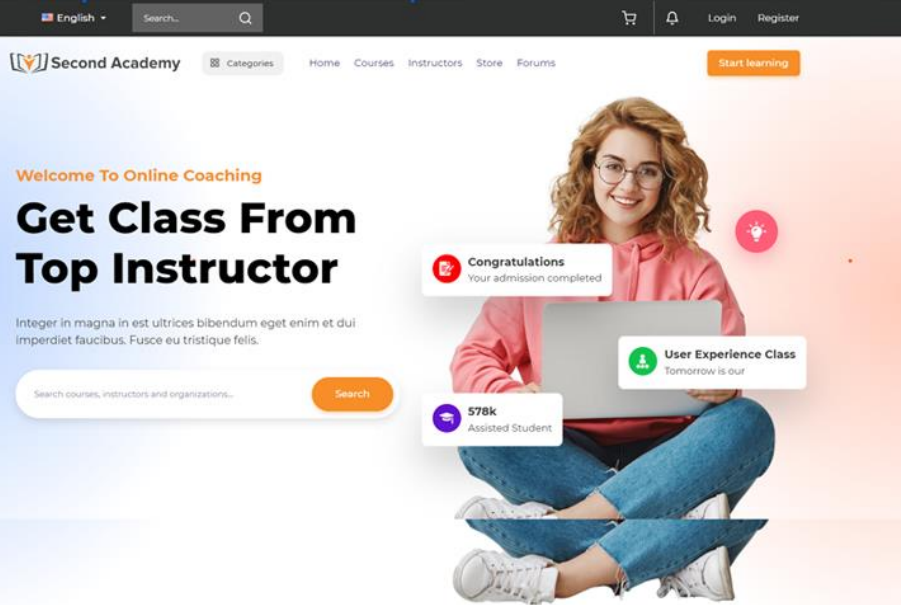

Recrueet offers employees KYC verification services and ensures that you hire the right candidate. With this, you will be assured of the authenticity of the candidate's overall details.

Resume Building Services

Recrueet also helps candidates in creating an outstanding resume. Our experts will provide a well-formatted resume and help you impress the recruiters right away.

EMPILY Score

We generate the EMPILY score for each candidate following their previous job experience, employer ratings, skills, etc. And that's what makes us unique from others.

6

Project Name – Second Academy
Project Type – Online Coaching Platform

PROJECT DETAILS –

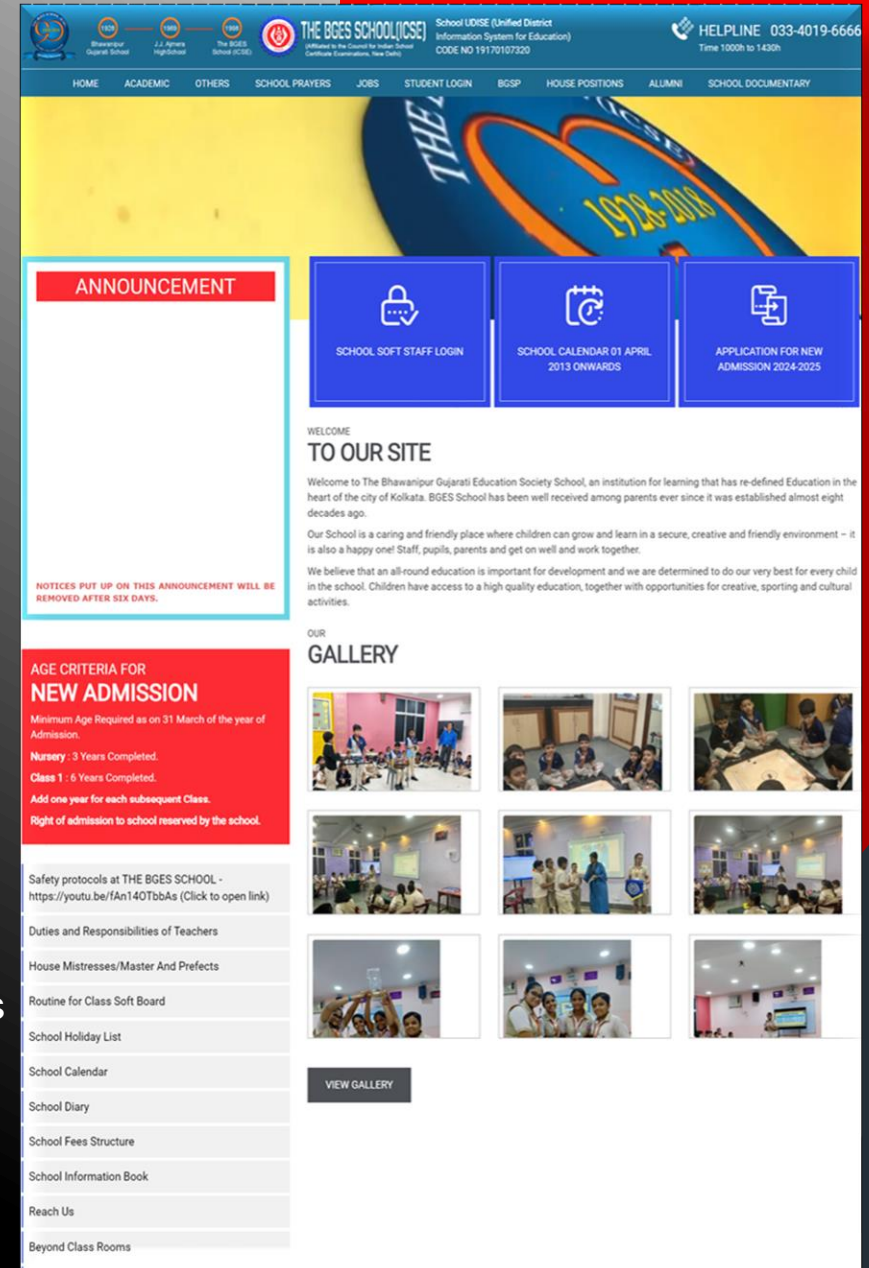

Second Academy is a digital coaching platform delivering world class coaching through state-of-the-art technologies. The platform is a fully-featured learning management system that provides round-the-clock education and allows instructors create professional study materials helping students learn more. Second Academy provides personalized, one-on-one coaching at scale with AI-enabled technology offering a simple and elegant user experience and a seamless coaching journey.

7

Project Name – BGES SCHOOL Project Type – School Management Application

PROJECT DETAILS –

BGES is a Kolkata (India) based school accredited under ICSE board (a regulatory body in India). The website details the school history and prospects. Along with the website, a school management application (a complete ERP solution) is available with BGES to manage their school. The application includes modules like, student and teacher management, staff management, payment management, attendance management, library management and more. Geared with biometrics features enabled, the application works as a one-stop-solution with multiple logins and secure admin.

The screenshot displays the BGES School website interface. At the top, there is a navigation bar with links for HOME, ACADEMIC, OTHERS, SCHOOL PRAYERS, JOBS, STUDENT LOGIN, BGSP, HOUSE POSITIONS, ALUMNI, and SCHOOL DOCUMENTARY. The header also includes the school's name, accreditation details (School UDISE, Information System for Education, CODE NO 19170107320), and a HELPLINE number (033-4019-6666).

The main content area features an ANNOUNCEMENT section with a red header and a note: "NOTICES PUT UP ON THIS ANNOUNCEMENT WILL BE REMOVED AFTER SIX DAYS." Below this, there are three blue buttons for "SCHOOL SOFT STAFF LOGIN", "SCHOOL CALENDAR 01 APRIL 2013 ONWARDS", and "APPLICATION FOR NEW ADMISSION 2024-2025".

A "WELCOME TO OUR SITE" section follows, providing a brief history of the school and its commitment to education. Below this is a "OUR GALLERY" section with a grid of images showing school activities and a "VIEW GALLERY" button.

On the left side, there is a sidebar menu with the following items: AGE CRITERIA FOR NEW ADMISSION, Safety protocols at THE BGES SCHOOL - <https://youtu.be/fAn140TbbAs> (Click to open link), Duties and Responsibilities of Teachers, House Mistresses/Master And Prefects, Routine for Class Soft Board, School Holiday List, School Calendar, School Diary, School Fees Structure, School Information Book, Reach Us, and Beyond Class Rooms.

Project Name – AapkaCA
Project Type – Tax Compliance Solution

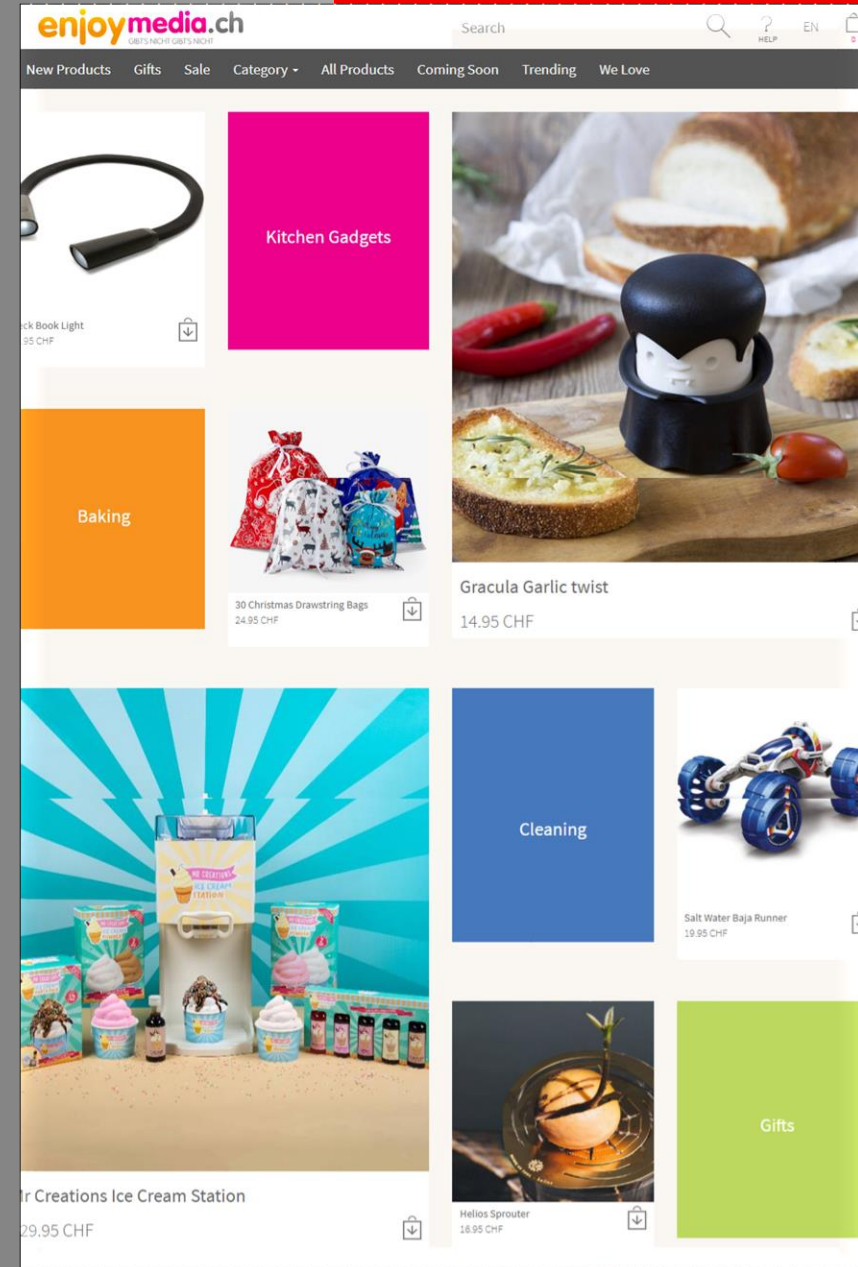

PROJECT DETAILS –

PROJECT DETAILS –

The platform is designed to predict high-quality and accurate cricket predictions and the live match predictions for all International and National cricket matches. Cricdope offers the best single and accumulator predictions for every match and gives predictions by conducting a thorough analysis, with a high success. Predictors on the platform have a good understanding of the game and analyze it by tracking several factors, such as recent five matches, head-to-head matches, pitch and weather reports, etc.

Client Testimonials

Rishi Agarwal

“One of the most professional companies with overall expertise in addressing complex requirements within a limited time frame. Really liked their after-sales service and commitment to accelerating the growth story of their clients like a partner rather than a vendor.”

Kristen R.

“ITSpectrum Solution (Rohan & Team) is the best development team we’ve worked with thus far. He’s on time, fair, has great communication, and does excellent work. Will be our go-to from now on.”

Avirup Ghoswami

“Thanks to team ITSpectrum. You have done a great job for my project. Very professional and competent.”

“Good team and very friendly.”

Client Testimonials

Client Testimonials

Agnivo Paul

“Great Service. Highly recommended.”

Debashis Roy

“The team is professional. They understand your requirements, maintain regular communication, and deliver on time. Strongly recommend.”

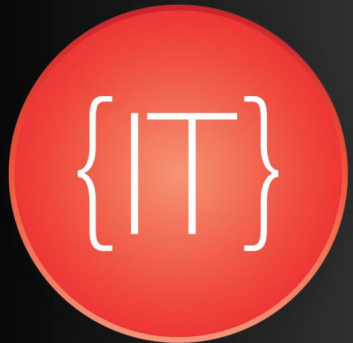

Kuntal Parbat

“Professional and highly experienced. Recommended for the development of customized software.”

Our Future Plan

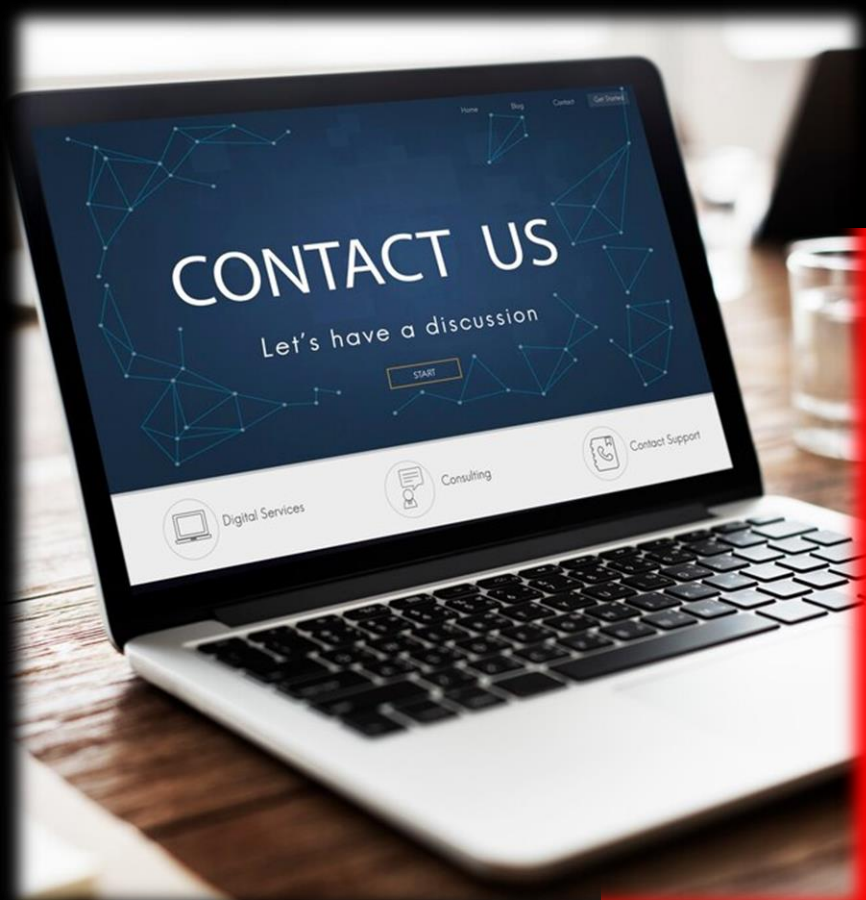

Our plans revolve around industry-specific solutions, innovation, global expansion, talent development, ethics, client satisfaction, and thought leadership. We invite you to join us on this exciting journey as we empower businesses through innovative software solutions. Our goal is to build and elongate long-term relationships with clients based on trust and mutual growth.

In the coming years, ITSpectrum Solutions will focus on developing tailored software solutions and becoming the most trustworthy and reliable associates for clients across the globe. We aspire to not only be recognized as a leading software development company in Kolkata or India but also to earn acclaim from clients globally.
